WHERE WILD HEARTS ROAM

WHERE WILD HEARTS ROAM

Namibia's Skeleton Coast remains one of our favourite and most incredible destinations for our photo-shoots. The light and scenery along this shore is simply magical.

In this wonderland for the senses,
where our bags can truly shine,
we cannot help but dream of islands far, far away,
of shipwrecked beauties along the shore
and of golden sunsets beneath an African sky.

Our TINA and KYM bags are versatile beauties that lend themselves gracefully to any occasion. The VALENTINA is still a sexy and confident favourite, with oh-so-boho beads that will leave many a jealous eye resting upon her.

And then there is ROSE – so elegant and poised,
a companion for anytime, anywhere.

In this land of magic,
where the soft cries of a seagull echo in the distance
and the warm sand beneath our feet
carries us away to journey Namibia,
our wild hearts are free to roam.
